

Tell Me About Yourself

1.

I've been an enthusiastic marketing manager for (Company Name) during the last four years of my career. During that time, my team has contributed to 25% revenue growth and brought in 7 new clients focusing within the healthcare industry.

Prior to that, I was with (Company Name), where I was able to increase new leads by 37% through online advertising. Although those opportunities were great, I'm ready to take on a larger challenge and would thrive in the (Position).

2.

I've enjoyed working as a pediatric nurse over the past seven years. I spent 2 years at (Hospital Name), receiving rewards and recognition for my work within the surgical center.

Prior to that at (Hospital Name), I was chosen as 1 of the 7 nurses to work on a research project that led to a 23% increase in patient feedback for the hospital. I've enjoyed my work over the last 2 years but am looking for a new challenge.

The reputation of (Hospital Name) with its high level of commitment and expertise is something I'm looking to help contribute towards.

3.

I'm a UX designer who enjoys contributing to team efforts within any company I work for. I recently completed a front-end design project for a Fortune 500 company's sales page. I helped cut delivery time down by 2 weeks and drove up new sales from the page by 17%. Before that, I worked at (Company Name) for 2 years, where I joined a team of 3 in designing an eCommerce website that recently won a design award. They were great learning experiences, but I'm ready to help provide my design expertise to (Company Name). I think my experience and productivity would be valued here.
